

# ICEsonic AT 160

The AT 160 takes air treatment to a whole new level. The AT 160 converts hot, wet and oily air that compressors produce, through a series of filters to produce cool clean air. Moisture and particulates can compromise the cleaning efficiency to your targeted surfaces, resulting in less productive work and more downtime. The all-in-one AT 160 portable After-Cooler includes: After-Cooler, Water Separator and a Coalescing Filter. The AT 160 is designed to make your job cleaner, faster and more cost effective than ever before.

## Specifications

<b>Air Inlet</b>	1" Universal Claw Coupling
<b>Housing/Frame</b>	Stainless Steel
<b>Filter</b>	40 µm
<b>Operational Air Pressure Max</b>	1600 kPa (16 bar) (233 psi)
<b>Max Air Flow</b>	7 m <sup>3</sup> /min (247 cfm)
<b>Power Supply</b>	110/240V AC (50/60 Hz)
<b>Weight</b>	35 kg (77 lbs)
<b>Dimensions</b>	500x800x800mm (20x31x31")
<b>Shipping Weight</b>	43 kg (95 lbs)
<b>Shipping Dimensions</b>	600x800x1050mm (24x31x41")
